

## **REPORT**

**on total SCOPE 1 and SCOPE 2  
carbon emissions in tCO<sub>2</sub>e  
of Interregional Academy of Personnel Management  
according the GHG's protocols corporates  
in 2023 year**

## SCOPE 1

Type of emissions	Actual emissions tCO <sub>2e</sub>	Explanation
Direct air emissions from stationary sources owned by the Academy	0,198	<p>In accordance with the legislation of Ukraine, the specified emissions were verified by the responsible state regulatory authority. The Academy has paid the relevant environmental tax in full.</p> <p>The calculations (accepted by the responsible state regulatory authorities) and (financial) documents confirming the Academy's payment of environmental tax for this particular volume of emissions are available on the website:  <a href="https://maup.com.ua/eng/pro-akademiyu/kampus/ecology.html">https://maup.com.ua/eng/pro-akademiyu/kampus/ecology.html</a></p>

Type of emissions	Cubic meter	CO <sub>2</sub> emission factor per unit (according to nationally approved standards)	Carbon emissions in tCO <sub>2e</sub>
Fuel used in vehicles - petrol	4,69	2,601	12,199

## SCOPE 2

Type of emissions	MWh	Emission factor from electricity consumption from the national energy system of Ukraine	Carbon emissions in tCO <sub>2</sub> e
Utility services consumed - electricity	2122	0,504	1069

**Total SCOPE 1 and SCOPE 2  
carbon emissions in tCO<sub>2</sub>e**

	tCO <sub>2</sub> e
Scope 1	0,198 12,199
Scope 2	1069
<b>Total</b>	<b>1081,397</b>
